Support as written (Yes/No)  (If Yes please complete section 5 below)

**Section 4. Please indicate what changes you would like made to the Second Proposed Plan**

INSERT: New roads should normally have a speed limit of 20mph applied from the outset.

**Section 5. Representation**

Your representation should be no more than 2,000 words. You should explain clearly and concisely your reasons for seeking a change to or supporting this aspect of the Second Proposed Plan. You may also provide additional documents at this stage, and may not have the chance to do so later (i.e. at the examination stage). If you are attaching additional documents as part of your representation you must refer to these in this section of the form and include a summary of their content. Representations which simply state “see attached” or similar will not be accepted and will be returned.

There is strong public support for lowering speed limits throughout the city to 20mph, for all main roads including arterial, shopping and residential streets. 20mph speed limits provide numerous public benefits; they promote road safety, active travel, and cut air pollution. City planning policy for new roads should explicitly support this.
